About Us

The NorthWoods Stewardship Center is a non-profit 501(c)3 educational, research and conservation service organization serving the communities of northern Vermont and New Hampshire since 1989. Our Education, Conservation Corps, and Forest Stewardship Institute programs interconnect to provide the knowledge and skills needed to understand the northern landscape, make use of its resources wisely, and help sustain vibrant communities and a healthier natural environment.

NORTHWOODS STEWARDSHIP CENTER

Connecting people and place through
science, education and action.

FOREST STEWARDSHIP

Forestry demonstration and education

- 1475 acre Spitzer Demonstration Forest models the ecological effects of sustainable forestry
- Forest tours, workshops, and sustainable forestry internship program in the NorthWoods forest
- Riparian tree planting, stream & lakeshore assessments, ecological surveys & forestry consulting services for landowners, executed in collaboration with natural resource agencies

EDUCATION

Cultivating an affinity for the natural world

- Day and after-school experiential learning programs and field trips to NorthWoods campus
- Our year round camps and expeditions inspire young people to explore nature on foot, ski, snowshoe, and canoe
- Workshops, challenges and retreats connect all ages to the outdoors

CONSERVATION CORPS

Conservation Employment for Northeast Youth

- Youth & Professional Conservation Crews and Internship placements provide conservation training & leadership development
- Trail building/maintenance, invasive species control, habitat management & riparian buffer restoration services available to public & private landowners.
- Partnerships with federal and state agencies improve public access, protect wildlife & plant communities
