CEDARCIRCLEFARM.ORG

CEDAR CIRCLE FARM is a certified organic vegetable and berry farm with a social mission. We engage the community to develop and share practices that promote regenerative agriculture, good health, and a resource-rich environment.

This is a place to learn, to taste and experience new things, and to meet and get to know your community. It's a place to strengthen your connection to the food you eat and to the people who grow it. It's a place where your kids—and you!—can ask questions to become more informed. A place where everyone can be involved and be a part of a larger movement to create a better world.

We offer organic produce grown right here on our farm, plus prepared foods from our kitchen and a variety of organic grocery items, many from other local producers. Our produce is of the highest quality and always grown with care.
